

# Raccordi accessori Sprint® Serie S2000

Filetti dei raccordi: cilindrici (G1/8, G1/4, G3/8, G1/2),  
conici (R1/8, R1/4, R3/8, R1/2)

I raccordi accessori Serie S2000 sono caratterizzati da una grande affidabilità dei filetti femmina, sia cilindrici che conici, con superfici non piane. I modelli Sprint sono dotati di un particolare sistema di tenuta, già alloggiato sul filetto conico, che rende superfluo l'uso di collanti liquidi o del nastro PTFE ottimizzando la fase di montaggio.

Grazie a questo sistema di tenuta è possibile montare e smontare più volte il raccordo senza pregiudicare la tenuta sul filetto.
